EXPERIENCE

Quintegro, Remote — Frontend developer

April 2023 - Present

Frontend developer, Next.js, Typescript, GROQ, Sanity

<https://quintegro.com/>

Engaged in developing and optimizing a Next.js/React website with a Sanity.io CMS, I specialize in creating reusable components, bug fixing, and code reviewing. Working closely with a cross-functional team, I enhance website functionality and user experience, by integrating localization features and leveraging Next.js APIs. Through continuous collaboration, I contribute to adding new features and ensuring code quality within a fast-paced, agile environment.

Ecoparsec, Remote — Development team lead

July 2022 - Present

Project lead, Docker, Next.js, Typescript, GraphQL, Strapi, Gatsby, Web Design, Node.js, PWA

<https://yrvn.am/>

As a technical expert for a non-profit organization, I am responsible for selecting and setting up the backend technology (strapi, directus), as well as configuring Nginx and Docker. My primary focus, however, is on frontend development (Next.js, GraphQL) and web design (we don't have nor designer nor design).

Achievements:

Create [web app](#) on Next.js from scratch with map with recycling points on Armenia, eco wiki. Setup CI/CD, setup backend. Implemented map on the Department of Yerevan's "Greening and Environmental Protection" website.

WayRay, Moscow / Remote — Frontend team lead

April 2021 - April 2023

Docker, Next.js, Typescript, GraphQL, Strapi, Gatsby, Web Design

<https://wayray.com>

Lead outsource team, create internal projects (CMS for employees, service

SKILLS

React, Next.js, Gatsby, Typescript, Redux, Redux actions, GraphQL, web design, GIT, Docker, Linux, styled components, html5/css3, ES6, leaflet, Figma, SVG, PWA, Strapi, Directus, Peerjs, Sagas, WebSocket, WebRTC

ACTIVE PUBLIC PROJECTS

yrvn.am

Ecoparsec NGO, web app with ecological map and wiki
I work here now

decloud.cc

"Scan and share" between devices, web app (PWA)
My pet project

LANGUAGES

Russian - Native

English - Upper intermediate

for office security), refactor projects. Setup CRM (strapi) for the website

Achievements:

Completely rewrote the website, optimize animations, CEO, optimize videos (automatically while build) and images, move all content to CRM (strapi), created some projects

Freelance, Remote — Frontend developer

August 2020 - February 2021

React, Gatsby, typescript, styled components, Node.js

Create web design (via Figma) and complete website on Gatsby (React, typescript, GraphQL) and strapi. Minimal DevOps experience (nginx, webhooks, VMWare setup). Optimize metadata (SEO metadata etc.), images and videos.

Xometry Europe (Shift GmbH until May 2020), Remote — Frontend developer

October 2019 - July 2020

React, Redux, Typescript, styled components, WordPress

Managed several frontend projects - CRM, Partners Area and Customers panel.

Achievements:

Refactor old projects, optimize architecture, move projects to typescript. Creating new features, redesign old ones. Create UI library

Optimax Investments Ltd., Tolyatti — Frontend developer

July 2018 - July 2019

React, Redux, Flow, Jest, Sagas

Create new features, Performance optimization, Bug fixing, Code review.

I've gained a lot of teamwork experience here with great developers and management by SCRUM and pure AGILE.

Achievements:

Optimized website loading speed by decrease amount of requests to backend

Remote work, Remote — Frontend developer

October 2015 - June 2018

Vue/Vuex, WebRTC, WebSocket, Nuxtjs, Angular 1.4

- Create CRM systems, websites
- Implement new features
- Code support, refactoring

Zolotoykod, Samara — *Web designer, developer*

August 2014 - October 2015

PHP, html/css, Bitrix, JS, Web design, Photographer, Web designer

Team lead of web development department. Accompanied negotiations with customers. Created new sites on Bitrix. Print design.
